## We're Inviting You!

Dear Colleagues,

Once again, **Contraceptive Technology: Quest for Excellence** brings you an exciting agenda of need-to-know management updates on contraceptives and a variety of GYN conditions and problems. We give considerable attention this year to hormonal contraceptives, covering new formulations, efficacy, benefits and side effects. As always, we provide insight into how to manage the tricky problems you'll see first thing back in the office on Monday morning—pelvic pain, persistent vaginitis, abnormal breast findings, and LSIL and HSIL management, to name just a few.

Our speakers will bring you the state of the art, as well as the controversial practice tips: managing the side effects of long-acting reversible methods to help patients continue with these highly effective methods, how today's key study findings guide pill management, controversial issues related to adolescent contraception, as well as new breakthroughs in understanding how HIV is transmitted. You won't want to miss the STD Clinical Update Preconference, focusing on the highlights of the new *STD Treatment Guidelines* or the other interesting Preconferences. And where else will you learn about the more off-beat dilemmas you frequently encounter? The real low-down on Vitamin D, Omega-3, and other supplements, how the media influences adolescent sexual behavior, and discerning any *significant* difference among the myriad of combined pill formulations.

If this is your first *Contraceptive Technology* conference, we welcome you to join us and the other attendees, many of whom have come to a dozen or more of these conferences over the years. If this is your twelfth, seventh or third conference with us, we look forward to seeing you again and to having great conversation about the clinical challenges you face. Everyone has the opportunity to engage with the authors of the eponymous reference, *Contraceptive Technology*, and with the leading clinicians and researchers we've invited to present.

Last, and most critical, we guarantee that your conference experience will run seamlessly. Production value counts when you are investing limited funds and, even more, limited time. We look forward to seeing you at the year's best national family planning conference!

## What You Will Learn

### This program will enable you to better:

- ▶ Fine-tune your contraceptive management skills, appropriately incorporating new options and prescribing regimens.
- ▶ Recognize early signs and symptoms and discuss clinical management of common and complex challenges in women's health and primary care, including persistent vaginitis, abnormal breast findings, chronic pelvic pain, adolescent issues, abnormal pap and others.
- ▶ Outline practical approaches for preventing unintended pregnancy.
- ▶ Discuss the clinical management of common side effects of long-acting reversible contraception to maximize patient acceptance of these highly effective methods.
- ▶ Examine typical routine screening tests done during well woman exams and identify protocols for appropriate care and best use of resources.
- ▶ Describe media influence on adolescent sexual and other risk-taking behaviors and identify strategies for improving media literacy.

## Who Should Attend?

- ▶ Physicians
- ▶ Nurse Practitioners
- ▶ Pharmacists
- ▶ Nurse-Midwives
- ▶ Registered Nurses
- ▶ Physician Assistants
- ▶ Public Health Professionals
- ▶ Researchers
- ▶ Health Educators

... and anyone else interested in contraception and women's health care.

**RAVE REVIEWS!**

"I encourage more family medicine providers to attend. I guarantee you'll change at least one way in which you care for women."

*Lena Vasquez, MD • San Antonio, TX*

"Always excellent! My last Contraceptive Technology was five years ago—much too long to wait for such good information."

*Bekah Kittredge, CNM • Leominster, MA*

"This conference has made me a better clinician. It went above and beyond! I can't wait to get back to my clinic. Many thanks and I'll be back!"

*Jenny Lessman, PA-C • Detroit Lakes, MN*

"As a WHNP student about to graduate, this was my first foray into the world of women's health conferences. I loved and learned from every minute of it. I would have stayed another week."

*Erin Reed, RN • Nashville, TN*

"I cannot wait to return to work with all of this new knowledge that I have gained which will change the way I practice and treat my patients. It has the potential to revolutionize women's health care."

*Kenya Prade, WHNP-BC • Conyers, GA*

"The conference was everything I wanted and more!!! I will be attending this conference in the future!!"

*Krystal Deal, RN • Statesville, NC*

"The Contraceptive Technology conference is not to be missed. To practice with the most current, up-to-date guidelines and get your questions answered by the people who "wrote the book," you must attend."

*Jennifer Stuckey, RN, MSN, CNM • Macon, GA*

"This is my first conference since becoming a CNM. I was very impressed by the variety of topics and the quality of the speakers that presented. I am looking forward to many more conferences through Contemporary Forums."

*Amy Shuler, ARNP, CNM • Jacksonville, FL*

## Sexually Transmitted Infections: Clinical Update

Thursday, November 3 – 8:00 a.m. – 5:15 p.m.

- ▶ What is new in the 2010 CDC STD Treatment Guidelines?
- ▶ Are there new diagnostic and management recommendations for genital herpes?
- ▶ What are the implications for expedited partner treatment related to antibiotic-resistant gonorrhea?
- ▶ What are the latest headlines on STD/HIV prevention?

Attend this Preconference and find out the answers to these and other questions you have about managing STDs in your clinical practice. This Preconference will address screening and treatment regimens based on the new 2010 STD Treatment Guidelines for a variety of sexually transmitted infections. A case-based approach will help you identify common STD lesions and problem-solve clinical dilemmas with our expert faculty. If a comprehensive clinical update on STDs is what you need, this is the Preconference for you!

### This Preconference will enable you to:

- ▶ Focus on the highlights of the 2010 STD Treatment Guidelines.

## Preconference B

### Contraception for Women with Chronic Medical Conditions

Thursday, November 3 – 8:00 a.m. – 12:30 p.m.

- ▶ Is it safe to prescribe oral contraceptives for women with hypertension?
- ▶ Why are long-acting reversible contraceptives often a good choice for women with chronic medical conditions?
- ▶ Are there non-contraceptive benefits which may improve your patient's chronic health condition?

Find out the answers to these and many other questions you have about prescribing contraception for women with common chronic medical conditions. Taught by a panel of experts, this Preconference focuses on the essential information you need to help your patients make informed decisions and, through case discussion, gives you the tools and knowledge to manage challenging contraceptive dilemmas.

This dynamic educational opportunity will enable you to:

- ▶ Update your knowledge on the U.S. medical eligibility criteria for contraceptive use.
- ▶ Discuss contraceptive management for women with specific chronic medical conditions.
- ▶ Identify non-contraceptive benefits which may improve your patient's health status.
- ▶ Review a variety of illustrative case scenarios and make contraceptive management recommendations.
